

CareClaims *Pro*

Advanced Medicare Claims Management for Maximum Reimbursement

Careficient's CareClaims Pro

CareClaims Pro offers advanced features, creating a web-based environment for optimizing Medicare financial outcomes, instead of relying on the DDE.

Key Benefits

Predictive Analytics: Anticipate and prevent denials with data-driven insights.

Custom Reporting: Gain deeper insights into your revenue cycle performance.

Intelligent Automation: Free up your team by automating repetitive tasks and streamlining workflows.

Efficient Claims Correction: Includes error notifications for RTP (Return to Provider) claims, allowing quick and accurate corrections.
